Into Effect With New  
Ordinance

BREEDING-PEN IS  
ORDERED REMOVED

Trustees in Lengthy Session  
Considered Matters of  
Interest

### IS YOUR CHICKEN YARD OFFENSIVE TO NEIGHBORS?

Owing to the numerous complaints made to City Trustees that chicken-yards are maintained close to residences and in an uncleanly and offensive manner, the City Trustees last night instructed the authorities to strictly enforce the following law:

#### Ordinance No. 32

"Section 4. It shall be unlawful for any person keeping or having hens, ducks, geese or other domestic fowls, or rabbits, or any kind of tame animals within the limits of the town of Santa Ana, to cause or permit them to go or be at large, and to go or be upon the premises owned or occupied by any other persons without such other person's consent or to do keep or have any such fowls or animals so as to be offensive to or annoy any person or persons residing in the neighborhood where they are kept or had, so as to render life uncomfortable."

### Bulletins of News

Hot from the wire up to 3:30 p.m.

#### THE WEATHER

Fair tonight and Wednesday; light northeast wind.

**Motorcyclist Kills  
Man—Held For Manslaughter**

SAN DIEGO, Oct. 3.—Theodore L. Lutz was held today in \$1000 bail trial on a manslaughter charge, being run down and killed E. Ruiz, Mexican, with a motorcycle.

**Odd Fellows Pour  
Into Grand Encampment**

SANTA CRUZ, Cal., Oct. 3.—Hundreds of delegates to the fifty-seventh Grand Encampment of the Independent Order of Odd Fellows, are arriving today by every train.

**Money "Wasted" in  
Stephenson Campaign**

WILWAUKEE, Wis., Oct. 3.—That much money has been wasted in Senator Stephenson's senatorial campaign, was the statement today by E. A. Edmunds, his campaign manager, testifying in an investigation before the Heyburn committee, sitting on the charge that Stephenson was illegally elected to his seat in the Federal senate.

**CONGRESSMAN SMITH BLISTER**

MONROVIA, Oct. 3.—Reports on the Poitinger sanatorium are that S. C. Smith, congressman from the Sixth California district, continues to gain steadily. It is not yet possible, however, to make any statement as to when he will be able to leave, but his condition is regarded as quite satisfactory, and a permanent recovery is indicated.

**Two Kinds of Government**

"There are two kinds of government that governs in secret; that governs so that the people are unaware of the influences that act in the matters submitted to that government."

"There is the other kind that governs in the open and that takes into its confidence the people of all the state all the time."

"It is the latter kind of government that the State of California has today, and its chief executive is here and all over the state ready to give the people a detailed account of the stewardship of the present administration in California."—Governor Johnson.

"We try to."

Grubb: "You try, but you don't enforce it. I want this new law so that children going to the schools may ride the sidewalks in muddy weather and not break any law. I don't like to make habitual law-breakers of children. This law covers a district where paved streets are not available."

The amended ordinance was passed.

**It Can't Be Done**

Grubb said that he wanted to know if it would be the policy of the board to use the Vrooman Act in carrying out the method of the city for street improvement, by which method the property owners furnish the oil and gravel and the city does the work. He said that on some streets but one man refuses to sign up. Should he be invoked against him?"

The city attorney stated that the Vrooman Act could not be used in a case of that kind, that the city could not propose to do a part of the work when the act was used.

Ey: "Under the plan we follow, the work must be voluntary or not at all."

the recent Board of Harbor Commiss-

16 Gilbert Sproule is out of his job as state collector at San Francisco, and will return to this county very soon.

Sproule was Southern Pacific agent at West Orange for a number of years, and was a Republican central com-

mitteeman.

Four years ago he was appointed a state collector to succeed "Bob" Wil-

liams, formerly of West Orange, on the San Francisco waterfront.

He failed to get reappointment on Sept. 30, and he was collector on Broadway State Pier No. 9. While employed in

litan county central committeemen of Orange county.

The present Board of Harbor Com-

missioners, appointed by Governor

Johnson, has been making a sweep of

the old waterfront employees at San

Francisco. Sproule was here in July

and August, and at that time circu-

lated his petition and secured signs.

The outcome of his effort to hang on

to the job was not known here until

today, when word was received that

Sproule was not reappointed.

Sproule was collector on Broadway

State Pier No. 9. While employed in

Commissioner Shields immediately.

## THE RICHFIELD OIL REFINERY IS PIONEERING

RICHFIELD, Oct. 3.—Much interest is shown in the new refinery plant at Richfield, that is being tried out. It is proven entirely successful, as there is every reason to expect from the trials thus far conducted, it is said that this plant will revolutionize the business of refining in the oil fields and will work a great good to the oil industry.

The plant at Richfield is of its kind that has ever been erected. One section of the plant has been thoroughly tried out. A number of visitors have been at Richfield recently from Los Angeles and other points at the invitation of the builders of the plant to see it operate, and much enthusiasm was manifested. It is thought that the plant will be entirely finished within a week, and it will then be started up on a permanent basis.

The Kellogg Oil Refining Company owns the new plant at Richfield. The inventions on which it has been based and for which patents have been applied are also the property of the company.

The main idea in connection with the new system of refining or topping the oil, and which it is thought will revolutionize the industry to a great extent, is in the use of coiled pipe through which the oil flows. Heat pre-

vailing in the pipe is regulated to suit the work at the time, whether it is extracting gasoline, benzine, kerosene or asphalt. Under the system now in use, there is an individual still, requiring individual filling and attention. It is claimed that the use of the coiled pipe will make a gain of better than 40 per cent in the time required for handling a given amount of oil, besides averting all delays between runs.

The Richfield plant consists of the pipe-coil system and four large tanks, two of which are 1000 barrels in capacity each. It is expected to increase the size of both the tanks and the coiled-pipe system of the plant.

The capacity of the plant will be about twenty carloads of 10,000 gallons each per day. It is thought that the Kellogg Company will install several plants similar to the one in the Oildale field. The new plants cost less than the old and refinery charges will be less.

### CARELESS ABOUT APPENDICITIS IN SANTA ANA

Many Santa Ana people have stomach or bowel trouble which is likely to run into appendicitis. If you have constipation, sour stomach, or gas on the stomach, try simple buckthorn bark, glycerine, etc., as compounded in Adler's, the new German appendicitis remedy. The Rowley Drug Co. states that a SINGLE DOSE of this simple remedy will relieve bowel or stomach trouble most INSTANTLY.

## G. E. CONVENTION AT ORANGE, OCT. 6, 7, 8

### Coming Convention Revives Interesting History of County Meets

Plans are rapidly being perfected for a successful session of the twenty-second annual convention of the Orange County Christian Endeavor convention, which is to be held in the Christian church at Orange, on Oct. 6, 7 and 8. Programs printed in the state C. E. colors, gold and purple, are almost complete and from these some interesting data regarding the strength of the Christian Endeavor in Orange county is gleaned.

In the county there are nineteen Young People's, or what is known as Senior, societies; seven Intermediate and nine Junior societies, the total membership of these societies being 1025. Of these 667 belong to the Senior societies, 293 to the Intermediates and 215 to the Juniors.

The officers of the county organization are as follows:

President—Herbert P. Rankin, Santa Ana.

Vice President—E. W. Tuttle, Tustin.

Secretary—Miss Olive Hutchison, Santa Ana.

Treasurer—Arthur Worthy, Huntington Beach.

Pastoral Counsellor—Rev. J. A. Stevenson, Santa Ana.

Superintendents—Quiet Hour, Miss Mary L. Wood, Santa Ana; Junior, Miss Pansy B. Remington, Fullerton; Tent Legion, H. C. Bates Villa Park; Missionary, Mrs. H. P. Rankin, Santa Ana; Citizenship and Temperance, W. H. Thomas, Santa Ana; Floating, Donald McMillan, Alamitos; Hospital, Miss Ada O'Brien, Santa Ana; "C. E. 1911," Miss Velda Medlock, Santa Ana; District Chairman—I, Scott Torrens, Santa Ana; 2, L. R. Beymer, El Modena; 3, Geo. M. Ross, Anaheim; 4, Miss Hallie Walker, Huntington Beach.

Former Presidents and Conventions

It will be interesting in this connection to know the names of those who have formerly held the position of president, and also to know when and where the county conventions, beginning in the last century, have been held. The information follows:

The first county president was Stephen E. Keiffer of Anaheim, presiding over the first county convention at Santa Ana, April 11, 1891, and a semi-annual meeting held at Anaheim on Oct. 10, 1891. Mr. Keiffer succeeded himself in 1892, presiding over the second convention at Orange, April 9, and at a semi-annual at Buena Park, Oct. 8, 1892; M. Flora Scarritt of Orange, two terms, presiding at Santa Ana, April 8, 1893, at the semi-annual, Tustin, Oct. 21, 1892, and at Orange, April 7, 1894; A. E. Bennett of Tustin, two terms, presiding at Anaheim, April 13, 1895, and Fullerton, April 18, 1896; Richard Pearson of El Modena, at El Modena, April 24, 1897; L. P. Hickox, Santa Ana, Villa Park April 23, 1908; Donald McMillan of Alamitos, Santa Ana, April 22, 1899; Miss Jessie G. Flook of Santa Ana two terms, Anaheim, May 5, 1900 and rally, Santa Ana, June 13, 1901; Miss Louise Dean of Fullerton, Fullerton Feb. 13, 1902; Miss Celia Cotter of Santa Ana, Tustin, Feb. 28, 1903; Dr. E. D. B. Newton of Santa Ana, two terms, Westminster, March 26, 1904 and Santa Ana, Feb. 18, 1905; A. M. Robinson of Santa Ana, three terms Anaheim, March 31, 1906, Fullerton, March 23, 1907, and Orange, May 2, 1908; Miss Lulu Minter of Santa Ana, three terms, El Modena, March 13, 1909, Westminster, Oct. 9, 1909, and Huntington Beach, Sept. 30-Oct. 1, 1910.

### THEY INJURE CHILDREN

Cathartics and Pills and Harsh Physics May Cause Distressing Complaints

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics, and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea, and distressing after-effects, and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associated bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhea, nausea, griping, excessive looseness, or other undesirable effects.

They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulatory tonic upon the relaxed muscular coat of the bowel thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really, in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children aged and delicate persons. They are prepared in tablet form, and in two sizes of packages; 12 tablets, 10c; 30 tablets, 25c, and 80 tablets, 50c. Remember you can obtain Rexall Remedies only at our store—The Rexall Store, Dean's Drug Store, 104 West Fourth street.

—USED FOUR YEARS

Orange, Cal., Oct. 12, '09

The Bartlett Music Co.

Sirs:

We have had an Autopiano nearly

four years and are well pleased with it, and believe it to be one of the best

tuned pianos on the market.

K. E. WATSON.

## Cool Weather is Coming Soon!

## Want a Stylish Fall Suit?

We Have Never Shown a Larger, Handsomer Line.  
Choose Now While Stocks Are Full.

The materials for Fall wear are mainly the manly cloths, such as tweeds, Scotch mixtures, rough cheviots, and other rough cloths that make up well on tailored lines. They are materials that hang well and hold the shape of the garment, which adds so much to the looks of a coat or skirt. And as to colors, browns, tans, grays, blues, and blacks predominate. These are the best and most serviceable shades for men and women alike, and the best tailors are showing their finest suits made up in these modest colorings.

The jackets are a trifle longer than those for Spring. They come in one to four button effects, manly coats with plain lapels, neat watch pockets on the breast, and every line trim and smooth. The skirts are cut on the new pleated and panel effects, in sensible widths. A wearer of a new Fall Suit will look well dressed and feel well dressed on all occasions.

Here is one new feature in our Suits this year that will be appreciated. We have had dress shields put in the coats, and the shields are satin lined to match the coat lining. Also, the very best hair cloth and tailor's canvas are used which does away with heavy padding.

As to prices, we have Suits from \$12.50 to \$32.50. We bought a whole line to sell at \$15.00 special, and this Suit is a remarkable value for the money; we have never shown its equal. And then we have an especially fine assortment at the popular price of \$20 and \$25. We shall be glad to let you look over our line and compare our prices, for we know our prices are right.

**Rankin Dry Goods Co.**  
INC. 107 WEST FOURTH 410 NORTH MAIN

## THE CITY COUNCIL

(Continued from page one)

Phee said he thought the garbage man should not skip anyone, leaving that person to pay some other person to be paid to do what the city man should do. The matter is to be taken up with the health officer.

Up to Marshal

McPhee reported that there was much complaint that cement left on the sidewalk near the corner of Fourth and Birch was a nuisance. Grubb stated that he had notified the parties three times and the street superintendent had notified them once to do away with the nuisance. The matter was referred to the police department with instruction to act.

McPhee stated that just complaints had been made against a jack breeding pen near the corner of Second and Spurgeon streets. The marshal was instructed to notify the owner, Stevens, to move the animals from the neighborhood. The trustees considered the advisability of passing an ordinance prohibiting the maintenance any breeding-pen for animals within 300 feet of any residence.

**Santa Ana Can't**

Grubb: "I find that Los Angeles easily handles the auto stand matter by requiring each rental man to get the written consent of the occupant of the building in front of which the auto is to stand. Our city attorney says we can't do it."

City Attorney: "I know they do it, but that law is not legal."

Grubb: "But they do it, and it works well."

Ey: "The man who caused most of the trouble over rental autos here was moved from Fourth street to Riverside." This reference was to E. W. Moulin.

Other Matters

McPhee stated that complaint had been made because an automobile repair shop on West Fourth uses the street as a repair floor. Grubb said he was assured the shop would soon make provision for a remedy.

On Greenleaf's suggestion, Policeman Murray was given a fifteen-day vacation.

Chicken Yard Odor

During the discussion of the breeding pen nuisance, Alderman suggested that something be done to prevent a man placing a chicken-yard within a few feet of his neighbor's house.

"No chicken-yard should be within thirty or forty feet of a house," said Reid.

The city clerk read the present ordinance which makes it a misdemeanor for any person to allow his chicken-yard to become offensive.

McPhee: "I move that the city marshal be instructed to enforce that law."

Grubb: "I keep my chickens up, and I don't see why a little bantam rooster on coming to my window every morning to crow."

City Marshal: "This law doesn't come to the city marshal at all as it stands, until you have declared each particular chicken-pen a nuisance. Then I can act. I can't do anything until you do that."

On McPhee's motion a man named Tousley was given a permit to use the sidewalks when hauling vegetables from house to house in a push-cart. McPhee said Tousley has a wife and baby, and could earn a living no other way as he is not strong.

Nine Cent Rate

The ordinance fixing the commercial electric light rate at nine cents per kilowatt hour was read and passed. The emergency clause was inserted, and the new rate goes into effect on the publication of the ordinance.

When the ordinance was read Local Manager Deimling of the Edison Co. remanded the board with a check for \$3063.95.

"This is six per cent of our gross

receipts for last year," said he. "Our books are open to your inspection."

Trustee Grubb said he thought a committee should examine the books, merely as a business procedure, not doubting the report. On Grubb's motion, Grubb and Alderman were appointed to inspect the books.

A resolution was adopted directed to readjusting an old contract concerning the lighting of public buildings. Hitherto the city got free lighting for public buildings and the Edison company got free water for use in the gas plant, now owned by another company. Under the new contract, the public buildings are to pay six cents for kilowatt hour for electricity, and the electric and gas companies are to pay for their water by meter at regular city rates. Schools and library are to get light at six cents, chargeable to the school board and library board.

Reid stated that under the old contract the present gas company has been giving nothing in return for the free use of water. Hereafter it will pay for its water.

"I wish to tell the board that I am

sadly in need of some books," said City Attorney Heathman, "and I expect to ask the board to allow me to buy some new law books, soon."

Transfer of Funds

Alderman and Grubb entered into a discussion of the advisability of transferring money from one fund to another. Alderman opposing transfers. Grubb declared that emergencies could be met only in that way.

The \$3063.95 received from the Edison company was distributed, \$500 to the fire fund, \$1500 to the street fund and \$1016.35 to the general fund.

To Name Locations

Property owners petitioned for street lights on West Seventeenth and Bristol streets.

Alderman: "This board must locate lights all over the city at once

so that the Edison company can order its material. I move that a committee be appointed to locate all lights at once, and that this petition be referred to the committee."

The motion carried, the committee to consist of the members of the board and of Ransom Reid.

A petition for a light at the corner of West Eighteenth and Eucalyptus streets was referred to the committee.</

## RECALL IS NECESSARY TO LIBERTY

A few days ago the Register quoted Charles Sumner on the recall of judges. There was another great man who once said something respecting the courts of this land; said it in a time of stress, it is true, when a decision had been rendered that shocked the morality and the justice of every civilized country on the face of the earth. The immortal Lincoln, speaking at that time said, quoting from one who had long gone before: "Jefferson said that judges are as honest as other men, and not more so." And Lincoln said substantially that whenever a free government should give up in absolute submission to any department of the government, retaining for themselves no appeal, their liberties were gone. "Echoing the language of that man," said Gov. Johnson in a recent speech, "of whom to speak praise were a work of supererogation with any American audience, I say to you that when the people of the state of California retain for themselves no appeal from any tribunal or any part of their government, their liberties are gone."

In a subsequent speech, Mr. Lincoln uttered these words: "The people of these United States are the rightful masters both of congresses and courts; not to overthrow the constitution, but to overthrow the men who pervert the constitution. To do these things we must employ instrumentalities."

In closing the speech, in which he quoted Lincoln, Gov. Johnson said: "If we follow the words of wisdom of him who was perhaps our greatest patriot, we in California are the masters of legislatures and of courts, and to be their masters we must have instrumentalities; and the only instrumentality that we have now by which we can be the masters of our courts is the instrumentality of the recall in its applicability to the judiciary of the land."

## ROOSEVELT WRITES ON PACIFIC COAST

Editor Theodore Roosevelt is doing some good work in boosting for the Pacific coast. His editorial in the last issue of the Outlook is headed "The People of the Pacific Coast" and he certainly does give this section a great send off. California could ask no better press agent than the former president of the United States. The following extracts from the article will give an idea of its cordial character:

I wish all Americans who travel anywhere would travel to the Pacific coast, and, above all, I wish that everyone who goes to Europe would go to the slope either before or afterward. I doubt if there are any communities now growing to maturity anywhere in the world more interesting than the states of California, Oregon and Washington.

Last spring, traveling through the country and meeting men of all kinds foremost in every species of effort—political, industrial, artistic and scientific—I felt that we Americans, who nowadays are so much more apt to be pessimistic than to be optimistic about ourselves, ought to be more profoundly thankful than we are for just the kind of government under which we live, and just the kind of continental background upon which our civilization is developing.

We are one nation; we are steadily becoming more strongly national; our system of home rule for each state and each city in the things that concern primarily that state or city gives us the opportunity to develop along many different lines and prevents the deadening effects of mere uniformity. It is a great advantage, for instance, to have each community allowed to local legislation. After all, in our form of government it is best that we try the experiments it wishes in should have Texas or Arizona or any other state each be willing and able to try its own experiments in government to test them by actual practice and thereby to give a chance to the states that look on profit by the results, whatever they may be.

These flourishing communities, growing with such abounding vigor, are typically and intensely American; and yet they have a quality of their own. There is nothing quite like the coast, either in America or anywhere else. Nature is different from what it is elsewhere. The giant sequoias and redwoods, the wonderfully beautiful isolated mountain peaks and great mountain ranges, the giant chasms like the Yosemite, the forests, the flower meadows, the soft, sunny,

(By Judson King, Field Secretary The National Referendum League)

Objection No. 8: "This proposed amendment transfers the legislative function from the legislature, the elected representatives of the people, to the people themselves . . . Let no citizen be deceived by the catch words 'initiative' and 'referendum.' They mean nothing more nor less than that the law-making function is to be taken away from the legislature which is supposed to consist of 120 available men best qualified in the opinion of the electors, to represent the opinion of the people, and that the making of laws is to become a hit-or-miss, haphazard, goes-as-you-like game chance at the polls." Recent editorial in a leading corporation newspaper.

The initiative and Referendum is such a fair and eminently American proposition that it is difficult to fight it except by misrepresentation. The man who wrote this knew perfectly well that the "function" of law making was not taken away from the legislature. He knew the plain truth that what is taken from the legislature is the final and absolute power to say what the people shall have, and shall not have.

As long as the legislature represents the people, and lives up to its campaign pledges, the people will not interfere. But if it attempts to make evil laws, to grant special privileges, or refuse to pass needed laws, the people will do these things themselves.

The records disclose that 98 percent of the laws passed in Oregon since the adoption of Direct Legislation have been enacted by the legislative assembly. The following table, which will exhibit to the California

voters what has happened in Oregon where the Initiative and Referendum has been used more than in any other state:

Proportion  
Oregon Legislation of 1909 and  
Election of 1910:  
Total average vote cast on measures .....88,742 men  
Membership of the Legislature 90 men  
Deliberation  
88,742 men had from 4 to 20 months to consider 32 measures  
90 men had 40 days to consider 228 resolutions and .....634 bills  
Results

Of the 32 measures the voters considered .....9 passed  
Of the 634 bills considered by legislature .....238 passed

Evidently representative government is not "abolished" or "transferred" in Oregon but is still on the job and has much to do. Of the 238 bills passed only one was challenged by a referendum in 1910.

Any man who knows the "careless, haphazard, go-as-you-please" manner of passing laws during the closing days of any legislative sessions when the machine "puts through" the laws it wants, will laugh at the parting shot of our editor.

I have been told by members of the Oregon Supreme Court that initiative laws have been more carefully prepared than any other legislation in that state. There are thousands of patriotic men not in the legislature who are as capable of preparing laws as the 120 who get there somehow.

Legislative assemblies have forfeited the old time respect of the people, who are now learning to trust themselves.

## ENTERTAINED TRAVELERS

Mrs. J. P. Baumgartner Is Hostess at Luncheon in Lovely New Home.

## ANNIVERSARY MEETING

Hermosa Chapter Celebrated Birthday—Paid Tribute to Mrs. Maude Bowes

The members of the Ebell First Travelers' Class were yesterday the guests of their leader, Mrs. John P. Baumgartner, at a very delightful luncheon party given at her beautiful new home on North Main street. Mrs. Baumgartner was assisted by her sister, Mrs. Ella Palmer, and Mrs. A. J. Crookshank, the Ebel's president, was a guest.

Luncheon was served in a dining room, a charming room in oak and delft blue, and at its close the year's travel was well begun by a tour of inspection of the new home—and what journey could be more enjoyable to an interested and appreciative body of housewives and home vera than the journey over a carefully planned and perfectly appointed home?

The large, airy, well-lighted rooms, the soft colorings, the many clever devices for comfort and convenience—none of these details were overlooked, but the ultimate charm of the whole house lies in the fact that every nook and corner is pervaded by that intangible, but altogether delightful something that spells "home," and by which the house is unmistakably stamped as a place in which to live and to be happy.

Several interesting books of travel were presented to the class for discussion, and the choice for the next year's work fell upon Russia.

The next meeting of the class will be at the home of Mrs. L. C. Skinner, on October 16.

**Household Economics No. 2**  
This section of the Ebell Society will meet tomorrow afternoon at the residence of Mrs. W. L. Grubb on North Main street, at half past two o'clock. Each member is requested to take with her a tablet and pencil.

**The Triangle Club**  
The Triangle Club will meet tonight at the Congregational church, the meeting to be held in the basement of the church. This is the first meeting of the season and it is sincerely hoped that a large attendance will mark the occasion. All young men are cordially invited.

**Orange County Conservatory of Music**  
Mr. and Mrs. Dundas Coming  
The many friends of Mr. and Mrs. I. J. Dundas will be pleased to learn that they are in California again with the prospect of making this their future home, having been transferred from the Illinois conference to that of Southern California.

They will be in Santa Ana this evening at the home of Mrs. A. J. Wood, 814 North Broadway, and expect to remain two or three days, hoping to meet their Santa Ana friends.

**Miss Alger to Stay in China**  
Miss Edna Alger, who went to China as a missionary a little over a year ago, and who has been quite ill, was advised by her physician to return to America, and her friends have been daily expecting her arrival here; instead, comes the good news by cablegram that she has improved in health enough to warrant her remaining, at least for the present.

**"Y" Meeting**  
It should not be forgotten that the Santa Ana young people who are banded together in this organization

Remember there is no admission to pay and there will be plenty of music.

504½ North Main street.

I. O. O. F. BUILDING SANTA ANA

## FIRE INSURANCE

will meet tomorrow night at the home of Miss Sarah Gardner, 412 West Washington avenue. They cordially invite the other young people of the city to join in the meeting, which is expected to be more than ordinarily interesting. Whether or not a saloon is of financial benefit to a community will be discussed pro and con. Special music will be prepared for the program. These meetings of the "Y"s" are always concluded in a social way.

—O—

### Off for South America

Clyde Marchant of Tustin, and his friend and college-mate, J. E. Miller, will leave tomorrow for Buenos Ayres, Argentina. The young men will make the trip by an interesting and roundabout way, going to the South American country via England. They will stop in Iowa en route to New York, from which city they will sail early in November for their English port of call. They will visit friends and relatives in both Iowa and England.

The social part of the evening was departure especially in honor of the departure of Mrs. Bowes for the East, for the new members, and to celebrate the twenty-second anniversary of the chapter. The sentiment of the evening took expression in a variety of ways. First and immediately noticeable on entering the room was the goodluck seating arrangement. The chairs were placed about the spacious room in groups, each group forming a horseshoe. In the center of the room was suspended an immense and beautiful horseshoe, and under this, in the horseshoe-shaped group of chairs, sat Mrs. Bowes, the new members, Mesdames Sweet and Fox, Worthy Matron Reinhause, Worthy Patron True, Past Worthy Matrons Medlock and Winbiger.

With Worthy Patron True presiding, an hour of brief but clever speeches passed by happily. Tributes to Mrs. Bowes as past grand matron of California, as worthy matron of Hermosa Chapter, and as friend, neighbor and loving mother, were voiced so freely that she could entertain no doubt of the sincere and hearty affection of her fraternal brothers and sister. Everybody united in wishes for a delightful time during her proposed year of absence, and a safe return to her friends and home in Santa Ana.

The new members were cordially welcomed and the anniversary properly remembered in the course of the speeches. The evening passed so happily that the witching hour of midnight rolled around before good nights were said.

**Mr. and Mrs. Dundas Coming**  
The many friends of Mr. and Mrs. I. J. Dundas will be pleased to learn that they are in California again with the prospect of making this their future home, having been transferred from the Illinois conference to that of Southern California.

Last but by no means least, you'll command the efficiency of our delivery.

## THE MODERN HEAD DRESS

**Causes Baldness—We Cannot Change the Head Dress, But We Can Prevent Baldness**

Up to the time we began to civilize him, a bald headed Indian was a thing unknown. Wearing nothing on his head except the covering furnished by nature and being a stranger to the use of a hair brush, especially the public one, the scalp and hair had plenty of ventilation, much sunlight, and hence, a condition favorable to a luxuriant growth of hair existed at all times.

It was the adoption of air and light excluding head gears and artificial head decorations generally, together with the occasional use of a community hair brush, which gave the dandruff germ its opportunity. Since this parasite has multiplied to an alarming degree until now there is hardly a person who is not troubled more or less with dandruff and falling hair.

Many, to be sure, have passed the worrying stage. Having become chronically bald they realize that nothing is capable of producing natural hair for them. Let these be a warning to all who are experiencing the significant annoyance of dandruff and falling hair.

Dandruff, which is due to a germ, and falling hair can both be overcome by the regular use of Newbro's Herpicide.

This wonderful scalp remedy kills the vicious germ which causes dandruff, cleanses the scalp and stops the hair from coming out. The destruction of the germ permits the hair to grow naturally and luxuriantly as nature intends.

Herpicide makes the hair bright, snappy, light and fluffy.

One ounce bottles guaranteed.

For sale at all drug stores.

Applications obtained at the better barber shops and hair dressing parlors.

Send 10c in stamps or silver for sample and booklet to The Herpicide Co., Dept. R, Detroit, Mich.

### Stop Thief!

Sam Wallach was telling a story on himself and Frank McIntyre at a little gathering of theatrical people a few nights ago.

"I was manager for Robert Edeson," he said. "Frank was in the company. We struck Riverside, Cal., and in the hotel was a big vase full of fine oranges. When Frank and I got ready to retire we decided we wanted some of those oranges. Frank stood in front of the vase and I swiped two oranges. Then we started for the elevator. At that juncture the hotel clerk called to us."

"Going to bed?" he asked pleasantly.

"Yes," I replied nervously.

"Well, take some oranges up with you," said the clerk. "That's what they're there for."

"So," concluded Wallach, "Frank went back and got a few." —New York Telegram.

## GOOD FUEL CHEAP

—At our yards, Fruit street and S. P. tracks, until Oct. 15, apricot pit shells only \$2.50 per ton; after Oct. 15 the price will be \$3 per ton. Come while they are cheap. They burn freely and make a hot fire—big fuel value for the money. Guggenheim Co.

### WELL PLEASED CUSTOMER

Santa Ana, Cal., Oct. 2, 1911.  
The Bartlett Music Co.

Sirs:—The Schumann piano that you sold us is giving good satisfaction and we are well pleased with it.

MRS. JOHN HASENYAGER,  
Grand Ave.

### Cheated

Manager—What's the leading lady in such a tantrum about?

Press Agent—She only got nine bouquets over the footlights tonight.

Manager—Great Scott! Ain't that enough?

Press Agent—Nope—she paid for ten.

WE WANT YOU

as a partner in a business which we are conducting along entirely new lines. We believe in the strength of numbers, rather than in individual fortunes of gigantic proportions. WE WANT YOU AND YOUR PERSONAL INTEREST JUST AS MUCH AS WE WANT YOUR INVESTMENT. Come, join us in the best paying business in the state of California—a business which right here in Los Angeles has grown to stupendous proportions—the co-operative home-building business. Ours is strictly a co-operative company engaged in the general real estate and building business in and about Los Angeles, California. Home-building is one of the best paying business in this part of the United States. Southern California is the "land of homes." Wage earners and salaried people, employees and employers alike, are binding themselves together into the powerful co-operative society known as Commonwealth Home Builders and are building up a co-operative society which is destined within the next few years to become so strong that it will be known the world over. You now have the opportunity to become a stockholder in this wonderfully growing and successful company. STOCK IS NOW 30 CENTS PER SHARE. 1000 SHARES WILL MAKE YOU INDEPENDENT IN A FEW YEARS. You can pay all cash, or \$30.00 cash, and then \$15.00 each month until paid.

Fill out the coupon below and mail it to us, and we will send you our book giving complete details of our plans of investment.

## COMMONWEALTH HOME BUILDERS

120 W. Sixth St.

Licensed Yesterday  
A marriage license was issued in Los Angeles yesterday to Herbert O. Michel, 22, of Santa Ana, and Bertha Ellerman, 14, of Los Angeles.

**Fraternal Aid Notice**  
At the regular meeting Wednesday evening there will be initiation and other important business. Refreshments. All members are requested to attend.

### Uses for Cotton Waste

Watch a man facing the problem of a severe case of erysipelas, which left me virtually bald on the front of my head and next to my ears. The machine needs cleaning, he produces his bunch of waste; if the oil is dripping to the floor, a handful of waste removes it. If his hands are greasy, he doesn't use a good towel, and then try to wash it; he uses cotton waste and burns it when it will absorb no more. If women who do their own work would go to the nearest hardware store and buy this inexpensive cotton waste, they would find their labors much lessened. The saucepan, or the greasy frying pan, if wiped with the waste soon after being taken from the stove, will need nothing more than rinsing. Dish-washing would be made easy if all greasy and sticky dishes were wiped off with the waste before being washed.—Good Housekeeping.

### Delighted With Fischer Piano

Santa Ana, Cal., Oct. 2, 1911.  
The Bartlett Music Co.

Sirs:—

Our Fischer piano is second to none in town. We are delighted with it and can recommend your firm for fair dealing.

MRS. A. L. REEDER,  
971 Hickey St.

### GRAND WINTER OPENING

FOR RENT—Rooms for office or dressmaking. Wells & Warner, 111 West Fourth St.

# REALLY CURES BAD STOMACH

No Indigestion, Gas, Heartburn or Dyspepsia Five Minutes Later

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which yours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diaperin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diaperin will regulate any out-of-order stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

Well Known Resident Satisfied

# Hains Leaves Prison After Pardon by Dix

Standard Oil Co. Goes to the South of Proven Field at Fullerton

FULLERTON, Oct. 3.—That the Standard Oil Company is placing hope in the new territory two to four miles south of the old proven Fullerton field is shown by the leasing of tracts in the eastern limits of Fullerton, one taken being that of John Besgrave in section 23 on Chapman Avenue. The Standard has begun drilling on the Coyote well in the north part of Fullerton with a standard rig. This is the farthest south that operations have proceeded, it being about a mile south of the Fisher well.

It is the opinion of oil operators that the company will have to go down considerably over 3000 feet before it strikes oil in commercial quantities; possibly to over 4000 feet. The Yarlate well, which is the Standard's deepest hole in the Fullerton field, is going down rapidly at this time. At the present rate, barring unforeseen trouble, the well should be brought in by the first of the year. The Leffingwell hole is down about 2500 feet.

The action takes place in the lobby of a fashionable Paris hotel and to give the piece the proper atmosphere a new complete set of scenery has been added. The entire company is seen to a fine advantage, Mr. Russell as the German brewer from Cincinnati who is mistaken for the Prince of Pilsen, handles the comedy role in a manner that only Mr. Russell can do while Mr. Fitzsimmons as the dashing, handsome young Prince gives a portrayal that would be a credit to the best of leading men. This week also adds another laurel to Mr. Fitzsimmons singing, his dream song is one of the prettiest seen or rendered in this city for many a day. Miss Edwards as the French maid, also is very good, while her singing shows that she has a beautiful cultured voice. Miss Mortimer does her part with her usual pretty and winning way.

This week's bill also introduces a new member, Miss Davis, who gives a clever performance that won her way into the hearts of the Mirror patrons.

The Kute Kids are neatly gowned and are as bewitching as ever, and come in for their usual applause. The pictures are good and clear, also new subjects that are interesting.

An Odd Habit Among Rocks  
Among the odd habits of rocks is the way that members of the same rookery have of intermarrying generation after generation. The males always choose their wives from among their near neighbors, and if one should be so bold as to bring home to his rookery a bride from a distance the other rooks will invariably refuse to receive her and will force the pair to build some way off. In the neighborhood of big rookeries outlying nests of this kind may always be found.

**TO OVERCOME HARD PAN**  
SAN BERNARDINO, Oct. 2.—To overcome "artificial" hardpan in citrus groves at Highland, the growers have commenced to straw through the groves. Over 250 tons have so far been used. This hardpan is found to come as the age of a grove increases. Hours of irrigation are necessary before the hard shell of soil is saturated. In many cases the trees become seriously affected. It is said that the straw overcomes the difficulty, breaks up the harpan, and restores a grove to its youthful vigor.

# SAGE AND SULPHUR CURES DANDRUFF

Restores Faded and Gray Hair to Natural Color—Itching Scalp Quickly Stopped.

This applies to Wyeth's Sage and Sulphur Hair Remedy, for if it does not exactly what is claimed for it, the sales would naturally drop off. However, Wyeth's Sage and Sulphur Hair Remedy does "make good," as evidenced by its daily increasing sales. Druggists say that this preparation gives the best satisfaction of any hair remedy ever sold. Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It removes dandruff, strengthens the hair, gives new life to dull or parched hair and gradually restores gray hair to natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. G. Co. sell Pioneer Roofing."

# NEW LAND IN THEIR PLANS

Standard Oil Co. Goes to the South of Proven Field at Fullerton

FULLERTON, Oct. 3.—That the Standard Oil Company is placing hope in the new territory two to four miles south of the old proven Fullerton field is shown by the leasing of tracts in the eastern limits of Fullerton, one taken being that of John Besgrave in section 23 on Chapman Avenue. The Standard has begun drilling on the Coyote well in the north part of Fullerton with a standard rig. This is the farthest south that operations have proceeded, it being about a mile south of the Fisher well.

It is the opinion of oil operators that the company will have to go down considerably over 3000 feet before it strikes oil in commercial quantities; possibly to over 4000 feet. The Yarlate well, which is the Standard's deepest hole in the Fullerton field, is going down rapidly at this time. At the present rate, barring unforeseen trouble, the well should be brought in by the first of the year. The Leffingwell hole is down about 2500 feet.

The Delaware Union is bringing in No. 37 at a depth of about 3000 feet, and it gives indications of being a good pumper of 19 gravity oil. The Coyote Hill well on the Hall lease, which has been drilling for three years, is again giving trouble at 3000 feet. The bit was twisted off and there is a fishing job to add gayety to the situation.

The producer, No. 4, on the Murphy lease, is flowing about 300 barrels a day of 22 gravity oil, which shows that the west side of the Fullerton field is in the same class with the Brea and Olinda sections.

The San Juan well, concerning which there is so much speculation, has been cemented off at 4700 feet and will be drilled deeper. It took 200 bags of cement to do the work, and this was forced down by powerful pumps and permitted to set.

The Union Oil Company is building and oiling roads on the Bastanchury ranch, indicating still further activity on the part of that company.

**A LITTLE GEM**  
Santa Ana, Cal., Oct. 2, 1911.  
The Bartlett Music Co.

Los Angeles, Cal.  
Sirs:—

Am pleased to give a word of praise for your fair dealing and like my piano very well indeed. The Schumann is a little gem.

MRS. L. A. MANN,  
510 E. 2nd St.

## COLORS AND VISION

The Human Eye and the Mystery of Distinguishing Hues

It is a curious fact that when there are seven colors in the rainbow—red, orange, yellow, green, indigo and violet—only three of them are primary—red, green and violet. That is to say, these three appear to be simple colors, while all the others may be produced by various combinations of these three. Red and green combine in certain proportions to produce yellow. In a different proportion the two produce orange. Again, green and violet combine to produce blue. It is said all shades of color are merely different combinations of the three primaries.

In keeping with this fact some of the ablest writers have held that there are three nerves, and but three, in the human eye—one to respond to the color red, another to green and yet another to violet. Other authorities present a different explanation. In the eye of the frog in the act of seeing there is a visible chemical action. There is a chemical substance exuded or spread over the retina or interior of the eye of the frog, called purpurine because of its purple color. Under the action of light this substance bleaches white.

Many today believe that the human eye has truly but one single optic nerve, for surgeons seem able to find but one. They hold, however, that in our act of seeing a chemical substance is exuded or spread over this nerve and that this substance has three different constituents, one element in it responding to the color red, another to green and yet another to violet. These latter authorities dispense with the three special optic nerves by providing our eyes with a threefold chemical substance.

The act of vision and its effect upon the brain are one of life's great mysteries. — Louisville Courier-Journal.

## Drops and Minims

Drops vary in size according to the conditions under which they are produced. Some are large and some are small, some long and some short. The drop of the druggist is called a minim, of which 480 go to make a fluid ounce and 76,890 to make a gallon. An actual experiment in filling a one ounce measure will probably show that 400 drops make a fluid ounce. The average drop is 20 per cent larger than the minim.

## Cooking Hint

Whenever you are baking cookies pin a piece of muslin over the bread board, stretching it tight. Flour the muslin well, and you can roll the dough as soft and thin as you please. A piece of muslin around the rolling pin is another improvement.

AT THE COURT HOUSE

# PETITION NOW IS SUFFICIENT

Board of Supervisors to Act on  
License Territory Elec-  
tion Tomorrow

A supplemental list of petitioners has been filed by J. T. Combs to the petition asking the Board of Supervisors to call an election to determine whether or not the fifth supervisorial district outside incorporated cities shall be a saloon licensed territory.

The original petition contained 189 names. Of the number twenty-three were not on the great register, leaving 166 on the petition. The number necessary to constitute a sufficient petition to cause the election to be called is 173. This morning's supplemental list contained ten additional names, all of which are on the great register. County Clerk Williams today certified to the Board of Supervisors that the petition is now sufficient, which means that the supervisors must call the election within sixty days and not sooner than thirty days. The matter will probably be acted upon by the supervisors tomorrow morning.

## Divorce Suit

Suit for divorce was begun today by Joseph Kuhn against Mary Sanchez Kuhn. H. H. Appeal of Los Angeles is attorney for the plaintiff.

## Books Turned Over

County Auditor Lester has finished computing the taxes and has turned the rolls over to Tax Collector Lamb, who is charged with the collection of the following funds:

State and county	\$406,117.19

Fullerton	420.67
Huntington Beach	88.66
Total	\$13,737.16

## Marriage Licenses

On October 2—Loyola Suttle, 31, of Inyoken, and Fessie Wilson, 26, of Los Angeles; Francis Jones, 60, and Frances Lane, 48, both of Los Angeles; Walter S. Dilley, 30, and Lea R. Getz, 24, both of Los Angeles.

On October 3—Thomas F. Price, 35, and Constance B. Gann, 24, both of Burbank; Jacob Enders, 38, of San Bernardino, and Jeanette A. Frisby, 28, of Los Angeles.

## MARTIN IS FILLING ARKANSAS DATES

Schedule Calls for Four Days  
Flying at Fayetteville  
This Week

Glenn L. Martin, the Santa Ana aviator, is scheduled to fly again today at Fayetteville, Ark. His dates there include Monday, Tuesday, Wednesday and Thursday of this week.

In a letter received from his mother, Mrs. C. Y. Martin, of South Main street, the aviator states that his exhibition at Clay Center, Neb., last Thursday, was highly pleasing to the committee in charge. The weather so far has been excellent, and the tour being made by the Santa Ana has proved not only a very ready means for fattening his bank account, but also for adding a few pounds to his own weight.

## Three-Fourths Are Women

Careful observers among the medical profession estimate that of those who seek the services of a physician three-fourths are women.

Many of these women are without question in need of surgical treatment, but perhaps the majority of them will be greatly benefited by medical treatment only.

In the course of treating such ailments, physicians have demonstrated beyond question the value of certain drugs in their treatment and, following the formula used by a physician especially successful in such cases, Rexall Vegetable Compound has been placed upon the market.

Many women have learned by experience that their ailments were of such a nature that they themselves might administer satisfactory treatment. While we do not recommend such a procedure, but strongly advise that you consult with your physician, we cannot speak too highly of the value of Rexall Compound for use in such cases.

Please remember that Rexall Vegetable Compound can be obtained only at our store—The Rexall Drug Store. Large bottles \$1.00. Dean's Drug Store, 2.

PLEASE TO RECOMMEND  
THE A. B. CHASE PIANO

Santa Ana, Cal., Oct. 2, 1911.  
The Bartlett Music Co.

Sirs:

We think that our A. B. Chase piano is just right. The tone is superb and the finish is the best. We are pleased to recommend this make of piano.

—Blankets, 75c a pair up. Com-  
forts \$1.25 up, at E. S. Gilberts.

## FIRST TRYOUT OF THE TEAM

Santa Ana High Football Play-  
ers Met Orange Pigskin  
Artists Yesterday

The Santa Ana High football team got its first tryout yesterday in a practice game with Orange High at Orange. No team work was expected by the coach, as the boys have not been together enough to master even the simplest plays. Some good individual playing was done by the Santa Ana team. "Bill" Warren at center showed his class in passing and breaking up Orange's plays. The Morrison brothers were there with the goods at half and quarter. Both are aggressive on defensive and slippery when carrying the ball. Santa Ana's best gains were made by these men.

"Brick" Grouard came in with some good punts and placed the ball between the goals for the only score of the game. He failed on four other attempts, but practice will make him one of the best kickers in the South this year. His carrying the ball was not up to par.

It should be remembered that lack of team work and not the man with the ball was responsible often for poor showing. In this respect Capt. Newcomer was unfortunate. His attempts to advance the ball usually failed, but he is getting a knowledge of the rules that will make him efficient as a captain later.

Several new men showed up well. Tidball at end is the "real thing." Stafford, McPhee, West, Holzgrafe, Timmons, Visel and Swanner show the making of football men.

The line-up at first was: RE. McPhee; RT. Stafford; RG. Swanner; C. Warren; LG. Visel; LT. Holzgrafe; LE. Tidball; Q. West; LH. Newcomer; RH. Morrison; F. Grouard; Referee, "Mike" Tedford. Score, 3-0.

METHODISTS WILL  
RAISE A MILLION  
DOLLARS FOR U. S. C.

LOS ANGELES, Oct. 3.—With great enthusiasm, members of the Methodist Episcopal conference last night adopted a report launching a campaign to add a half million dollars to the endowment fund of the University of Southern California, which is under the control of the conference. The Macay college of theology, a branch of the university, may get the bulk of this sum. It is planned to make this college one of the best of its kind in the United States.

The Rev. Matt S. Hughes of Pasadena presented the report. His recommendations that A. E. Pomeroy, J. L. Pittner, Will A. Knighten, D. W. Edwards, J. B. Green, George I. Cochran and W. F. Cornemiller be made trustees of this fund was adopted. The present endowment of the university is \$600,000.

AUSTIN, Pa., Oct. 3.—Burials of the bodies of those who succumbed to Saturday's terrible flood began at dawn today. Only a few of the bodies were mangled, most of them having met death by drowning. One woman's body with the head severed at the chin, and an infant's body with the back of the head torn off, were brought to the morgue.

James Willis Rice desires to announce that he has resumed his class. Those desiring violin instruction may communicate with Mr. Rice at Tustin, or phone Rod 2424.

MR. AND MRS. F. W. FULLER,  
115 Cypress St.

—Blankets, 75c a pair up. Com-  
forts \$1.25 up, at E. S. Gilberts.

## JURY NOT AGREED UPON A VERDICT

After being locked up for four hours, at 3 o'clock this afternoon the jury that heard the evidence in the suit of Attorney Victor Montgomery against Mary J. Neill had not reached a verdict. Montgomery sued for \$225.

### MADERO SEEMS TO BE UNANIMOUSLY CHOSEN PRESIDENT

MEXICO CITY, Oct. 3.—The returns from Mexico's election, coming in slowly, indicate that Gen. Madero has received practically unanimous vote for the Presidency. Few of Gen. Reyes' partisans voted because of their leader's withdrawal and Madero was the only remaining candidate who had been regularly nominated.

No Vice Presidential candidate seemingly had a sweeping majority.

From claims advanced by the progressives and the Catholic party, it appears that the race between Pino Suarez and President De la Barra is close.

## DR. WILEY WINS IN FIGHT FOR FREE HAND IN HIS WORK

WASHINGTON, Oct. 3.—A complete victory for Dr. Harvey Wiley in his fight for a free hand as government food expert came today when the following statement was issued from the Department of Agriculture: "George P. McCabe, solicitor for the Department of Agriculture has asked us to be relieved from serving on the board of food and drug inspection. His request has been granted."

### OVINGTON TRIES MACHINE FOR SEA TO SEA AIR FLIGHT

NEW YORK, Oct. 3.—If the weather conditions are favorable this afternoon, Earl L. Ovington will start Wednesday morning on his flight across the continent in a Queen monoplane for a newspaper prize of \$50,000.

At 10 o'clock this morning he was to begin trial flights at Nassau boulevard with the craft which he hopes will carry him to Los Angeles.

### RODGERS' FLIGHT DELAYED BY WRECK OF AEROPLANE

HUNTINGTON, Ind., Oct. 3.—Caught in a gust of wind, C. P. Rodgers' aeroplane dived to earth just after he had started from this city toward Chicago yesterday. The machine was wrecked and Rodgers painfully bruised. Rodgers started from a field half a mile south of this city. Hardly had he got into the air when a sharp wind swept the machine from his control and it swooped into an adjoining field. The aviator picked himself out of the twisted aeroplane and said he was only slightly hurt. Both planes of the machine were damaged and the carrying wheels were broken. Rodgers said it would be several days before the aeroplane could be repaired.

### HOUSEHOLD NECESSITY

Santa Ana, Cal., Oct. 2, 1911.  
The Bartlett Music Co.

Sirs:

We don't feel that we could keep house without our Autopiano. The tone and workmanship are superb, and we are well pleased with our treatment by your firm.

G. W. ROCKEFELLER,  
East Santa Clara Ave

## Wm. F. Lutz Co.

## Origin of Uncut

The seashore book shop was crowded. Best sellers at \$1.15, \$1.25 and even \$1.50 were going like hot cakes.

The proprietor, pushing through a throng of pretty girls in white, said joyously:

"We don't need to handle uncuts in this glorious country of ours. Why actually, I've just had to wire to New York for two extra salesmen."

"But what has that got to do with the uncuts," the reporter inquired.

"Uncuts," said the dealer, "are books with uncut edges. They originated in Scotland. In Scotland, in the past, a man would enter your shop today, read a chapter of some book or other and saunter out without buying anything. Tomorrow he would read another chapter gratis, and by the end of the month he would have finished the volume and be well into another."

"Hence the Scottish publishers and booksellers hit on the uncut, which you can't read without buying."

The dealer helped a pretty girl to stow in her limousine a stack of best sellers.

"But thank fortune," he said, "we don't need uncuts here."

## ARE YOU FREE FROM

Headaches, Colds, Indigestion,

Pains, Constipation, Sour Stomach,

Dizziness? If you are not, the most effective, prompt and pleasant method of getting rid of them is to take, now and then, a dessertspoonful of the ever refreshing and truly beneficial laxative remedy—Syrup of Figs and Elixir of Senna. It is well known throughout the world as the best of family laxative remedies, because it acts so gently and strengthens naturally without irritating the system in any way.

To get its beneficial effects it is always necessary to buy the genuine, manufactured by the California Fig Syrup Co., bearing the name of the Company, plainly printed on

## A Very Good Business

The wife of a wealthy business man of Chicago was the daughter of a policeman. As they grew rich both she and her husband concealed the fact as much as possible, for the sake of their social prestige. At a luncheon several society women of high position had been talking about their families.

"What was your father's business, Mrs. D?" was finally asked of the business man's wife. Mrs. D was not disturbed. "My father was in the copper business," she said with cool emphasis.
